## UNDERSTANDING YOUR CHILD'S SEMESTER 2 REPORT

Your child's Semester 2 report is a concise report of student progress and achievement that all parents can easily understand.

The final assessment is gained from the range of formal and informal assessment tasks and activities undertaken over the semester, an overall, balanced judgement is made about which standard or progression point the evidence best matches. The A-E scale used from Year 1 to Year 6, means that all Government schools (with the exception of some specialist setting schools) use the same approach to reporting student progress.

In every school:

- a 'Sound' (C) rating means that a student is at the standard expected at the time of reporting and that their learning is on track. A 'C' does not mean achievement is 'just adequate'. It indicates that a student has met the state-wide standard expected of students of their age at the time of reporting and their learning is firmly on track. Most students will receive this grade.

- a 'High' (B) rating means that a student is above the standard expected for their year level at the time of reporting

- an 'Outstanding' (A) rating means a student is well above the standard expected for their year level at the time of reporting

- a 'Basic' (D) rating means a student is below the standard expected

- a 'Limited' (E) rating means well below the standard expected for their year level at the time of reporting
